Experienced Software Test Engineer

Linkedin's triggerd a push message to me yesterday where I came to know that Vaion is looking for a tester. After reading the requirements, I believe I qualify for most of the requirements. I am seeking a challenging position in a professional environment.

Skills
I have worked with different mobile and multi-tier web apps. I am proud to mention that I have also worked on HREM (Human Resource Employee Management), which is web based application for a bank. It facilitates to maintain employees database, their roles and responsibilities, internal online instant messaging system, and document management.

Personality
I am pro-active, quick learner, and like working in agile teams.

Best regards,

Maryam Aslam
